

DEVELOPER / WRITER / DESIGNER

# David Fertitta

Versatile full stack web developer, with additional experience as a writer, graphic designer and marketer. After spending time working for fast-paced international start-ups and running Beijing's first English language stand-up comedy club, I've since returned to the US and am eager to merge my new passion of frontend web development with my past experience as experience in design and marketing to create apps that are

## Projects

### HOMER (IN PROGRESS)

*React JS / Rails*

[Github FE](#) / [Github BE](#)

Chicago Sports themed Wordpress style blog, with full auth built from the ground up using React with hooks and Quill.js for a rich text editor.

### BIG LEAGUE EATS

*React Native / Rails*

[Github FE](#) / [Github BE](#)

Mobile App which allows users to find and review food vendors near them at MLB stadiums (work in progress).

### ANGLER

*React JS / Rails*

[Github FE](#) / [Github BE](#)

[Demo Video](#)

Fishing app which uses the google maps api to let anglers log fishing results/lures/conditions at any location location.

### GLOBAL CRATE DIGGER

*Vanilla Javascript / Rails*

[Github FE](#) / [Github BE](#)

App that helped users discover new music from around the world by utilizing clickable SVG maps.
